Auditorium Decorations Stay.

The Toler auditorium is newly decorat ed every time there is an important our vention or series of conventions beld the next blg event. When the Sunflower League banquet was held in the auditorturn in the spring of 1900, the building was fittingly decorated with large artiff ctal sunflowers and these continued to bloom for more than a year. When the Democratic convention was held there last month the auditorium was gorgeous ly decorated with flags which continued to wave during the Republican conver tion and are still waving. They will probably be there for twelve months and it is admitted that no better decorations could be found.
